

### Applications

#### UV Inks / Coating

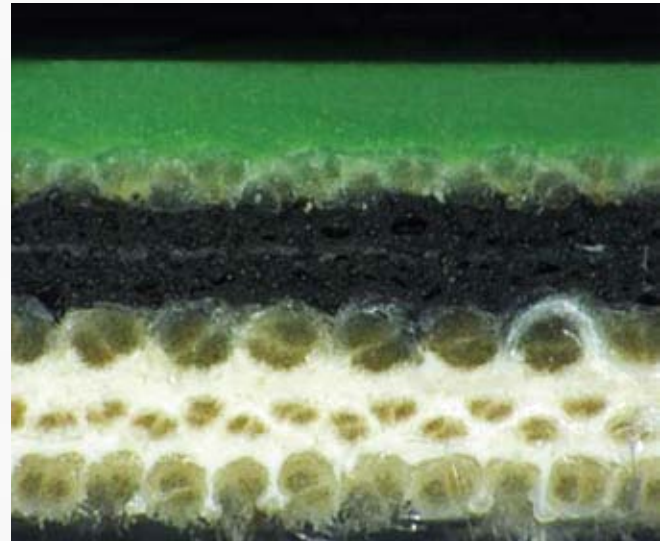

- UV Coating
- VSOP Web Printing
- Metal Deco

### Features and Benefits

- High Quality Cotton Carcass
- ThermaSphere® Compressible layer
- Soft compressible sponge is designed to absorb high impact and deliver longer life
- The polished surface delivers excellent dot reproduction with waterless inks
- High NBR rated surface for resistance to swelling and may be compatible with some energy curable inks

### Specifications

Color:	Green
Gauge/Ply:	.067"
	.077" /4ply
Compressibility:	Soft
Surface:	Polished
Surface Roughness (Ra):	0.9µm
Hardness (Shore A):	78° - 82°
Micro Hardness:	61°
Surface Rubber:	NBR
Adhesive Type:	"B"

### **Blanket Guarantee:**

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
